Education

SR University (B-Tech)
Computer Science and Engineering
CGPA: 9.09

2020 - 2024

Narayana Junior College
M.P.C
Percentage: 96.6%

2018 - 2020

Skills

Programming Languages: C, Core Java

Web Development: HTML, CSS

Platforms: Windows 10,11

Databases: SQL

Projects

Car Service Model

Core Java

- Created an algorithm to evaluate a vehicle's engine condition.
- Used previous data and user inputs to assess engine health.
- Made use of engine-built-in constraints to give accurate engine condition.
- Created a system to show engine performance details.
- Helped users understand their vehicle's engine health better.

Chatbot Based Online Shopping Web Application

HTML, CSS

- Built a chatbot-based online shopping web app to improve customer experience.
- Created a user-friendly interface using HTML, CSS, and Dialogflow.
- Added personalized product recommendations based on customer preferences.
- Added customization options to enhance user engagement.
- Designed a flexible and engaging shopping experience for customers.

Certifications

- Azure AI Fundamentals - Microsoft
- NPTEL-Database Management Systems - IIT Kharagpur
- NPTEL- Programming in Java - IIT Kharagpur
