Education

SR University (B-Tech)	2020-2024
Computer Science and Engineering	
CGPA-9.09	
Narayana Junior College (Intermediate)	2018-2020
M.P.C	
Percentage-96.6	

Skills

Programming Languages: C, Java, Python, C++

Web Development: HTML, CSS, JavaScript

Databases: SQL, Oracle DB

Tools: Git, GitHub, MS Office

Projects

Book My Show using C:

C

- A console-based ticket booking system that simulates the functionality of a popular entertainment booking platform.
- User can browse and book movie tickets, can view showtimes, and can manage bookings.
- Developed using C programming language and demonstrates understanding of **fundamental C concepts such as, data structures, file handling, user input validation.**
- This project showcases my problem-solving skills, coding abilities, and attention to detail as an entry-level graduate.

Car Service Model:

Core Java

- Developed a Code to evaluate a vehicle's engine condition.
- Used previous data and user inputs to assess engine health.
- Made use of engine-built-in constraints to give accurate engine condition.
- Created a system to show engine performance details.
- Helped users understand their vehicle's engine health better.

Certifications

- Azure AI Fundamentals - Microsoft
- NPTEL-Database Management Systems - IIT Kharagpur
- NPTEL- Programming in Java - IIT Kharagpur

Achievements

- Selected for the Under-25 District Cricket Team by the Suryapet Cricket Association (TCA) in 2022.
- Led a team of 5 members to deliver a successful project, demonstrating leadership and project management skills.
